

PRECISE. INNOVATIVE. LEADING.
INDUSTRIAL CONTROL SYSTEMS AND
FUEL INJECTION SOLUTIONS

CONTINUOUS PIONEERING ACHIEVEMENTS TO GUARANTEE YOUR COMPETITIVE EDGE

Why do world-renowned manufacturers of industrial systems and large engines place their trust in our products and components? With combined experience totaling over 230 years, we are among the pioneers in state-of-the-art industrial technologies. Our objective is to continuously optimize the control, performance, fuel consumption and service life of complex systems. For decades, we have been successfully developing the right solution for every one of our customers.

You can count on our innovative systems to meet increasingly stringent emissions regulations. With our products, quality and know-how, our customers are always a step ahead of the competition. And that builds confidence.

NEVER LOSING SIGHT OF THE FUTURE:
IN ORDER TO MEET AND EVEN EXCEED FUTURE
REQUIREMENTS, WE CONTINUOUSLY RESEARCH NEW
APPROACHES TO INNOVATIVE INJECTION SYSTEMS.

SETTING GREAT THINGS IN MOTION IS WHAT DRIVES US

Engine control, gas and diesel injection systems are required to deliver maximum performance under extreme conditions. Whether in the largest marine diesel engine, in the biggest dump trucks or the world's fastest diesel locomotive – innovative technology from us is what they all have in common. As large as the engines and vehicles may be, the tolerances with which the systems are designed and produced are extremely small. High-precision manufacturing techniques that are accurate to a thousandth of a millimeter along with consistent quality controls are the prerequisites for the outstanding performance of our product solutions.

CONTAINER SHIPS

LOCOMOTIVES

**EVERYWHERE PEAK PERFORMANCE COUNTS:
LARGE ENGINES WITH OUR SYSTEMS UNLEASH THEIR
POWER WITH EXCEPTIONAL EFFICIENCY.**

WITH INNOVATIVE PRODUCTS, WE ARE ALREADY MEETING YOUR FUTURE REQUIREMENTS TODAY

More efficiency, lower emissions – your objective is clear. As is what you demand from us. For our products and technologies, these two criteria are the measure of all things, from complete injection systems to individual components and the smallest spare parts. This is how we set standards in terms of cost-effectiveness, availability and reliability. And this is how we developed a leading position in our market segment over many years.

INNOVATIVE STRENGTH, EXPERIENCE
AND CAPABILITY ARE THE CORNERSTONES
FOR FORWARD-THINKING IDEAS AND
SUCCESSFUL PRODUCTS.

YOUR PARTNER FOR ANY CHALLENGE:
CONSTRUCTIVE DIALOGUE IS THE BASIS
OF OUR JOINT SUCCESS

WORLDWIDE AT YOUR SIDE – QUICK, FLEXIBLE AND RELIABLE

As an independent partner for the best industrial systems, we are strengthening ourselves for you all around the globe. With our worldwide distributor network, we ensure fast delivery of spare parts and reliable service throughout the entire product lifecycle.

Constructive exchange with our customers based on partnership and trust is our highest priority. Above all, it's about inspiring teamwork with you to find the right solution together. Through targeted task definition and implementation, we develop system solutions that are customized to your specific requirements. And more often than not, it is the interplay of customer wishes and our extensive experience that brings an even better idea to life.

**IN OVER 60 COUNTRIES WORLDWIDE, OUR PRODUCTS ARE AVAILABLE
TO YOU THROUGH US AND OUR DISTRIBUTION PARTNERS**
